WORK PIAGER

Work Manager System

Designer Responsibility

The Designer (design company) is the owner of the Work Order and GIS Design from creation through AsBuilts

- A U_Y gi fY XYg[[bYf@]b]h]U`gUfY]bX]W]hYX i bXYf K cf_ FYei YghCk bYf hc Ybgi fY delivery of emails as tasks are completed

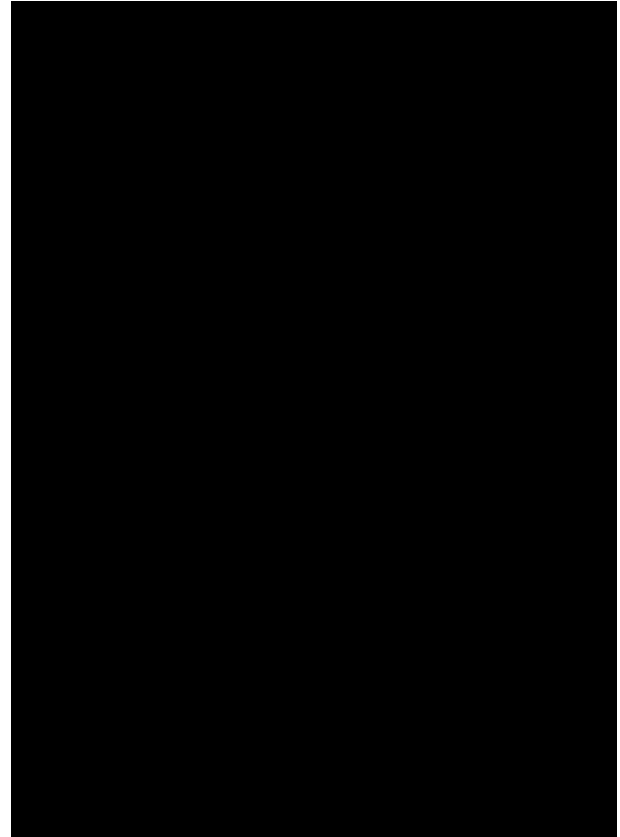

The screenshot shows a software interface with a list of Work Orders (WR) and a detailed view of a selected one. The list includes a minus sign icon, a hand icon, and a plus sign icon with a document icon. The selected WR is highlighted in blue and contains the text: "WR 40358525: DSGN, 12/23/2019, PALMR, CAPITAL, 9603". Below it is another entry: "Task 1000: C, M, REQ, 10/24/2019, 10/24/2019, APDM, I".

The detailed view below shows the following fields:

WR No:	40358525	WR Type:	PALMR
WR Name:	[REDACTED]		
Owner:	NK2		KYLE NEALON

Communication Transfers

- CPS Energy continues to stress the importance of communication transfers
- †

Process Standards

- Attachers must inform CPS/Contractors when fiber construction is complete
- Auto-post-fiber-inspection

GIS Design 1

Wireless Antenna Installation Violations

- EN Engineering and/or TRC are working with the wireless providers and customer engineering to start making the necessary adjustments on the weather head violations
- Clearance violations due to

Downtown Underground Fed Streetlights Update
