

Rudy Garza
Chief Customer Engagement Officer (CCEO)

February 11, 2021

Dear Mr. Harman,

I want to start by again thanking Cyrus Re

€Á **YOUR INPUT: The capacity reductions in [FlexSTEP](#) should be measured in Coincident Peak (CP) demand terms instead of Non-Coincident Peak (NCP) as has been our custom**

We continue to believe NCP is a broader measure that better aligns with how our customers use energy. We have consistently tracked and reported CP values and will continue to do so for

- €Á Mr. Ben Gorzell, CFO & Supervisor to Public Utilities
- €Á Ms. Ivalis Meza, Chief of Staff to the Mayor
- €Á Ms. Michelle Lugalía-Hollon, Director of Policy
